Subject: Inspection No. 83-01

This refers to the routine safety inspection conducted by J. Davis and T. Martin of this office on February 2, 1983 of activities authorized by NRC License No. 37-01848-01 and to the discussions of our findings held by Mr. Davis with yourself and Dr. Copman at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

In addition, our inspector examined those activities conducted under your license relating to the subject covered in your letter to Nuclear Regulatory Commission, Region I dated September 15, 1981. We have no further questions regarding this matter.
