Re application XSNM-1903

Dear Mr Griffin:

I wish to refer to your letter of January 5, 1982 regarding an application from Exxon Nuclear Company for a license to export 27 000 kg U containing 952 kg U-235 to Oskarshamnsverkets Kraftgrupp AB, Sweden.

Furthermore, I would like to refer to a US Department of Energy Memorandum signed by N Martin of January 27, 1982 to the Embassy concerning an augmentation of the quantities covered by the export license XSNM-1903 from 27 000 kg U containing 952 kg U-235 to 30 900 kg U containing 1082 kg U-235.

The material will be transferred to Exxon, Lingen, West Germany for the production of replacement fuel for the reactor Oskarshamn I.

We are now able to inform you that the above mentioned material will be subject to all terms and conditions of the US-Swedish agreement of cooperation regarding civil uses of atomic energy. OKG Aktiebolag is authorized to receive and possess the material.

We would appreciate it if you could send us copies of the export license when it has been approved.

Sincerely,

Lars Magnuson
First Secretary of Embassy
