In the Matter of
 Texas Utilities Generating Company, et al.
 (Comanche Peak Steam Electric Station, Units 1 and 2)
 Docket Nos. 50-445 & 50-446

Dear Mrs. Ellis:

I am writing in reference to your letter to me of March 11, 1983, specifying "a few items" which you state we have discussed briefly, as well as "a couple of other items." We are reviewing this letter, as well as your other letters of the same date, in an effort to respond promptly. However, two aspects of your letter require immediate clarification.

First, in reviewing your letter, I noted that you state in the second paragraph of item 2, that I felt "that the Board's verbal order (that we should not file admissions but rather that we should all engage in informal discovery) may preclude our sending the admissions which we have already typed...." To the contrary, I encouraged you to send us informally whatever discovery requests you may have so that we may expedite our consideration of your requests, in accordance with the Board's order. We have not yet been provided a copy of the requests for admissions. If provided such requests, we will give them prompt consideration.

Secondly, in item 5, regarding your list of "documents discussed in I&E Report 82-26," you state that you plan to contact me by phone regarding "the specific documents we need to know about...." You also state that if there are many such documents, you will send a list by Express Mail. However, in another letter from you to me, also dated March 11, 1983, you state that such a list is attached to that letter. The list was not attached to that letter and we have not received any such list from you.

Sincerely,
