

March 3, 1982

Docket No. 50-219  
LS05-82-03-007

Mr. P. B. Fiedler  
Vice President and Director - Oyster Creek  
Oyster Creek Nuclear Generating Station  
Post Office Box 388  
Forked River, New Jersey 08731

Dear Mr. Fiedler:

SUBJECT: SEP TOPIC VIII-1.A, POTENTIAL EQUIPMENT FAILURES ASSOCIATED  
WITH DEGRADED GRID VOLTAGE - OYSTER CREEK

SEP Topic VIII-1.A is composed of two tasks. The first task was to evaluate the adequacy of protection against degraded grid voltages. This task has been completed and the staff Safety Evaluation Report (SER) was issued on October 16, 1981.

The second task was to evaluate the adequacy of the onsite power system voltages. The staff SER for this task was also issued on October 16, 1981 (by separate cover). Because the staff has found that an adequate design exists, we conclude that Topic VIII-1.A has been completed satisfactorily.

Sincerely,

Dennis M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
Division of Licensing
