Secretary of Commission  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Attn: Docking & Service  
50-100 O.L.

Dear Secretary,

In response to the notice which appeared in the Raleigh News & Observer that the Carolina Power & Light Company is applying for an operating license for its Shearon Harris Nuclear Power Plant, the Citizens Against Nuclear Power hereby request that one or more hearings be held and that it be granted intervenor status.

Our particular concerns are the health and safety of our members and of those persons residing within a fifty mile radius of the plant. Additional concerns include the potential ill effects on the personal property, animal life, and vegetation of the area; inadequate radiation monitoring and evacuation plans; and the extraordinarily poor performance of CP&L's already existing nuclear plant operations and the concomitant contribution to the cost of electricity.

In accordance with the thirty day deadline which we understand to require a February 27, 1982 postmark, we hereby respectfully submit the request made above.

We look forward to hearing from you at an early date.

On behalf of Citizens Against Nuclear Power,

*Patricia T. Newman*

Patricia T. Newman  
Co-coordinator

*Slater E. Newman*
