U.S. Nuclear Regulatory Commission
Human Factors Assessment Branch
Marylee Slosson, Branch Chief
Washington, D.C. 20555-0001

Dear Ms. Slosson:

Enclosed are three copies of a new operator requalification program we would like for you to review and approve for our reactor facility. This requalification program has been reviewed and approved by our Reactor Safety Committee. We understand that we are not allowed to implement this new program until the NRC has approved it.

If you have any questions concerning the requal program, please feel free to call me at (208) 236-3637.

Sincerely,

R. David Clovis
