Mr. Frank Linder  
General Manager  
Dairyland Power Cooperative  
2615 East Avenue South  
La Crosse, Wisconsin 54601

Dear Mr. Linder:

SUBJECT: ORDER CONFIRMING LICENSEE COMMITMENTS ON POST-TMI RELATED  
ISSUES (GENERIC LETTERS 82-05 AND 82-10)

La Crosse Boiling Water Reactor

The Commission has issued the enclosed Order confirming your commitments to implement those post-TMI related items set forth in NUREG-0737 for which the staff requested completion on or after July 1, 1981. This Order is based on commitments contained in your letters responding to the NRC's Generic Letters 82-05 and 82-10 dated March 17, 1982 and May 5, 1982, respectively.

The Order references your letters and, in its Attachments, contains lists of the applicable NUREG-0737 items with your schedular commitments. As discussed in the Order, several of the items listed in Generic Letter 82-10 will be handled outside of this Order.

The Commission's intention when it issued NUREG-0737 was that items would be completed in accordance with the staff's recommended schedule. However, certain of your proposed schedule exceptions and technical deviations are acceptable. Therefore, the Order requires implementation of these items in accordance with your proposed schedule. SEO/  
DS4 USE(38)

Some of the items set forth in the Attachments to the Order are subject to post implementation review and inspection. Our post implementation review and/or the development of technical specifications may identify alterations to your method of implementing the requirement. Any identified alterations will be the subject of future correspondence.
