Subject: Application for SNM Export License for the Philippines.

Dear Mr. Devine:

General Atomic Company (GA) makes application, pursuant to 10 CFR 110, for license to export SNM in TRIGA fuel elements to the Philippines.

Under a recently negotiated contract, we will be converting their PRR-1 reactor from a plate type HEU fueled reactor to a pulsing TRIGA and will require TRIGA fuel elements for this conversion. Under the requested export license we will ship the fuels necessary for the conversion plus a complement of spares.

Please expedite this license issuance insofar as practicable to assure that we are viewed as a reliable supplier. Reference your telegram to the Philippine Atomic Energy Commission dated 2/11/82.

Should you have any questions, please direct them to the undersigned at (714) 455-2823.

Very truly yours,

William R. Mowry
