Dear Mr. Bridenbaugh:

Thank you for sending me copies of the "Nuclear Power Plant Decommissioning" and "Early Shutdown Scenario" studies. You related during our February 26, 1982 telephone conversation that the "Nuclear Power Plant Decommissioning" study was prepared by both you and Mr. Richard Hubbard and that the August 31, 1979 draft which you have sent to me is the most up-to-date version of this study. It is further my understanding that this study was never officially published, but was prepared by your company for another company.

Your assistance is most appreciated.

Yours truly,

Lee Scott Dewey
Counsel for NRC Staff
