Licensing and Nuclear Materials  
Management  
Mail Stop M/C J26  
P. O. Box 780  
Wilmington, North Carolina 28402

Gentlemen:

This is in response to your letters dated April 6, 1982 and November 18, 1982 both of which transmitted revised pages to your Fundamental Nuclear Material Control Plan.

We have determined that the proposed revisions are in accordance with the provisions of 10 CFR 70.32(c) and that their implementation will not endanger the common defense and security nor adversely affect the public health and safety and is otherwise in the public interest. Accordingly, License Condition 2.1 to Amendment MPP-3 to your License No. SNM-1097 is revised, effective immediately, to read as follows:

2.1 The licensee shall follow the Fundamental Nuclear Material Control Plan dated June 24, 1977; as amended according to the schedule of pages dated November 18, 1982 transmitted by his letter from Charles M. Vaughan to L. J. Evans dated November 18, 1982; and as may be revised in accordance with the provisions of 10 CFR 70.32(c).

Pages 3-16 through 3-22 and Pages 7-7 through 7-17 marked "demonstration" use typical values for plant inventory and upper action limits for process control. Actual values for inventory, action limits, and custodial assignments will be maintained separately by licensee management on a current basis. Appendix A site description and Appendix D descriptive data for annual inventory are included for clarification and are not part of the FNMC Plan.
