Re: The Cleveland Electric Illuminating Co.,
et al. (Perry Nuclear Power Plant, Units
1 and 2); Docket Nos. 50-440 and 50-441

Dear Ms. Hiatt:

The purpose of this letter is to update Applicants' March 8, 1983 response to Interrogatory #9-1 of Ohio Citizens for Responsible Energy Ninth Set of Interrogatories to Applicants, dated January 31, 1983.

Applicants possess, in addition to the documents previously identified relating to turbine missile hazards, copies of presentation handouts distributed at the EPRI Steam Turbine Disc Integrity Seminar held in Minneapolis on September 21-22, 1982. Arrangements for the inspection and copying of these documents can be made as indicated in Applicants' original answers.

Also, please note the following corrections to the identification of documents relating to turbine missile hazards available at the offices of Gilbert Associates, Inc.:

3. S. N. Semanderes, Westinghouse Report WCAP 7861, "Methods for Determining the Probability of a Turbine Missile Hitting a Particular Plant Region" (February 1972).
