Subject: Illinois Power Company (IPC) Nuclear Power Program

Dear Mr. Keppler:

On November 15, 1982 Illinois Power Company submitted the Illinois Power Company Improvement Program for your review and concurrence (Reference: D. P. Hall letter to J. G. Keppler, 0982-L, dated 11/15/82). The attachment Manual contains a more complete description of the IPC Nuclear Power Program and is forwarded as an update to our November 15, 1982 submittal.

The Manual is provided for your information and Illinois Power Company representatives are available to discuss any questions which may arise.

Sincerely yours,

D. P. Hall
Vice President

SUBJECT: Nuclear Power Program Management Manual

This letter promulgates the Illinois Power Company Nuclear Power Program Management Manual. Nuclear Power Program Management is the process that assures that all requirements are met to manage, construct, operate and maintain Clinton Nuclear Power Station properly.

This Manual contains programs, commitments, and schedules that constitute documentation of Nuclear Power Program Management within Illinois Power Company. The Illinois Power Company Improvement Program (Quality Recovery Program, Verification Program, Nuclear Program Management Plan) and supporting efforts are included. The Manual contains changes from material prepared in November, 1982. The major change is the addition of milestones addressing the Training Recovery Plan, Procurement Stop Work Recovery Plan and schedule updating. Only summary schedules are presented in this manual; where appropriate, detailed schedules are available in individual programs that support the goals described in the Manual.

The Nuclear Power Program Management Manual will be maintained in accordance with Section 2. Department Heads are responsible for application of resources within Illinois Power Company in support of the Nuclear Power Program.

D. P. Hall
