Docket 70-734
License SNM-696

Dr. Keith E. Asmussen, Director
Licensing, Safety and Nuclear Compliance
General Atomics
P.O. Box 85608
San Diego, California 92186-9784

Dear Dr. Asmussen:

SUBJECT: REVISED FUNDAMENTAL NUCLEAR MATERIAL CONTROL PLAN (TAC NO. L30655)

This is in response to your letter dated March 22, 1994 (your reference # 696-2213), by which you submitted a revised Fundamental Nuclear Material Control (FNMC) Plan. The revised FNMC Plan is necessitated by the significant changes in your site operations that have evolved over the last few years and by recent Nuclear Regulatory Commission concerns that your previous Plan was somewhat outdated.

We have completed our review of your revised FNMC Plan and have identified areas that need additional clarification and/or commitments. Our specific comments and questions are provided in the enclosure to this letter. Please refer to the above Tac No. in future correspondence related to this request.

Mr. Don Joy will be visiting your site in the near future to discuss and elaborate on our comments. He will be contacting you to arrange a meeting time that is convenient to you and your staff.

We have determined that the enclosure to this letter contains information of the type specified in 10 CFR 2.790(d) which is deemed to be commercial or financial within the meaning of 10 CFR 9.17(a)(4). Accordingly, said enclosure will be withheld from public disclosure unless subject to the provisions of 10 CFR 9.23.

Sincerely,

Original signed by

Robert E. Wilson, Project Manager
Licensing Section 1
Licensing Branch
Division of Fuel Cycle Safety
and Safeguards, NMSS
