

DCS  
MAY 20 1994

Docket No. 50-309

Mr. Charles D. Frizzle  
President  
Maine Yankee Atomic Power Company  
83 Edison Drive  
Augusta, Maine 04336

Dear Mr. Frizzle:

SUBJECT: REPORT OF APRIL 19, 1994 MEETING CONCERNING RESULTS OF  
MAINE YANKEE'S RADIATION PROTECTION PROGRAM  
SELF-ASSESSMENT

This letter transmits a meeting report that summarizes discussions held during the April 19, 1994 meeting in the NRC Region I office located in King of Prussia, Pennsylvania. The major topics included a presentation by your staff of results from an Annual Assessment and from a Management Oversight & Risk Tree (MORT) assessment of the radiation protection program at Maine Yankee Atomic Power Company. Other topics included a discussion of the new 10 CFR 20 regulations, the major projects planned by the licensee for the January 1995 refueling outage, and the licensee's radiation protection program initiatives that will be implemented for the outage.

Although the meeting was open to public observation, no members from the public attended the meeting. Attached to the report is a copy of the handout that was provided by members of your staff during the meeting. This handout was used as the basis for the Maine Yankee presentation.

We found this meeting useful to us in understanding the status of the radiation protection program at Maine Yankee. We also recognize your commitment of resources and effort in the performance of self-assessments and for the implementation of improvements in your radiation protection program. Your commitment to the performance of critical self-assessments resulting in continued improvements is commendable.
