Gulf Nuclear, Inc.  
ATTN: Ms. Ann E. Payne  
202 Medical Center Blvd.  
Webster, TX 77598

Gentlemen:

This refers to your application dated March 2, 1982, as amended, requesting approval of the Model No. GMM-20 packaging.

Your supplemental application of January 28, 1983 was not responsive to our request for additional information dated May 20, 1982.

In connection with our review of this application, we need all the information requested in our letter of May 20, 1982. Enclosed is another copy of Regulatory Guide 7.9, "Standard Format and Content of Part 71 Applications for Approval of Packaging of Type B, Large Quantity and Fissile Radioactive Material," which may be helpful in the preparation of your application. Also, we understand that you desire to obtain a U.S. Competent Authority Certificate for this package. In this regard you should address the pertinent requirements of the 1973 International Atomic Agency "Regulations for the Safe Transport of Radioactive Materials."

If it is your intention to provide this package to NRC licensees, it will be necessary to expand your Quality Assurance Program to include design, fabrication, assembly, and testing.

Please advise us within thirty (30) days from the date of this letter when this information will be provided. The additional information requested by this letter should be submitted in the form of revised pages. If you have any questions regarding this matter, we would be pleased to meet with you and your staff.

Sincerely,

Original Signed by  
CHARLES E. MACDONALD
