

ENCLOSURE 1

NOTICE OF VIOLATION

Alpine Technologies
Bruceeton Mills, West Virginia

Docket No. 030-20231
License No. 47-23065-01

During an NRC inspection conducted on April 26, 1994 and May 5, 1994, violations of NRC requirements were identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violations are listed below:

- A. License Condition 1 and 10 of License No. 47-23065-01 (Amendment No. 3) lists the address of this license as 572 Dunkard Avenue, Morgantown, West Virginia.

Contrary to the above, on January 27, 1994, a Commission representative found that the licensee was no longer located at the Dunkard Avenue address.

This is a Severity Level IV violation (Supplement VI).

- B. License Condition 12 requires, in part, that the licensee test for leakage sealed sources in its possession at intervals not to exceed six months.

Contrary to the above, the Licensee failed to leak test sealed sources contained in moisture density gauges between January 14, 1991 and June 5, 1992, and between June 5, 1992 and June 5, 1993. Each of the licensee's three moisture density gauges contains approximately 50 millicuries of Americium-241 and approximately 11 millicuries of Cesium-137.

This is a Severity Level IV violation (Supplement VI).

- C. License Condition 16 requires that the licensee shall conduct a physical inventory every six months to account for all sources and/or devices received and possessed under the licensee.

Contrary to the above the licensee did not conduct/inventories between January 14, 1991 and June 5, 1992 and between June 5, 1992 and June 5, 1993.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Alpine Technologies is hereby required to submit a written statement or explanation to the Regional Administrator, Region II, with a copy to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if

contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
