In the Matter of
LONG ISLAND LIGHTING COMPANY
(Shoreham Nuclear Power Station, Unit 1)
Docket No. 50-322 (OL)

Dear Ms. Letsche:

Pursuant to our recent telephone conversations you have been provided, under separate cover, a copy of NUREG/CR-2631, SAND 82-2726 entitled "A Logical Framework for Identifying Equipment Important to Safety in Nuclear Power Plants" (Draft). The Staff emphasizes that the enclosed report is an initial working draft provided to the Staff by its contractor, Sandia National Laboratories. No Staff input is embodied in this draft, which is currently under review by the NRC Staff and Sandia. This draft is not a final report and it does not represent the final conclusions and/or positions which the Staff may adopt on the matters involved nor should it be construed in any way to be guidance for applicants or licensees. In producing this document, the Staff does not waive its right to object to further discovery requests involving the enclosed draft report or the matters discussed therein.

Sincerely,

Bernard M. Bordenick
Counsel for NRC Staff
