Dear Mr. Griffin:

Enclosed is an application for an export license received recently by NRC for a nuclear export falling within the Executive Branch generic approvals of February 10, 1981 and May 6, 1981 for reloads of low-enriched uranium fuel, but for which a letter of assurance is required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurance letter will be appreciated.

Please note that material of Australian origin is involved in the proposed export which will require appropriate approvals pursuant to the U.S.-Australia Agreement for Peaceful Uses of Nuclear Energy.

Sincerely,

James V. Zimmerman, Assistant Director
