 SUA-1396, Amendment No. 16

Ogle Petroleum, Inc.
 2510 East Fifteenth Street, #8
 Casper, Wyoming 82601

Gentlemen:

Pursuant to Title 10, Code of Federal Regulations, Part 40, Source Material License SUA-1396 is hereby amended by deleting License Condition No. 21.

All other conditions of this license shall remain the same.

The effect of this amendment is to allow Ogle Petroleum, Inc. (OPI) to discontinue monthly personnel monitoring for external radiation. However, if OPI chooses to discontinue such personnel monitoring, OPI is still required to conduct periodic area monitoring at the Bison Basin Project site to verify that personnel exposures do not exceed 25% of the values specified in 10 CFR 20.101(a). This amendment was discussed between your Mr. Gary Saunders and Ms. Yvonne Young of my staff on January 14, 1983. There were no objections.
