Docket No. 40-8728
04008728080E

Teton Exploration Drilling Co., Inc.
P.O. Drawer A-1
Casper, Wyoming 82602

Gentlemen:

The NRC staff has evaluated the Leuenberger R&D N ore zone restoration and post-restoration stability data and determined that the N ore zone is restored to its original potential use condition (copy of NRC evaluation attached). No additional restoration is required by the NRC and the wellfield may be abandoned as prescribed by the WDEO in their May 19, 1982 letter to Teton Exploration Drilling.

If you have any questions, contact Mr. Fred Ross (301) 427-4533 of my staff.

Sincerely,

Original Signed By:

R. Dale Smith, Director
