Re: Commonwealth Edison Company (Dresden Station, Units 2 & 3)
Docket Nos. 50-237-SP and 50-249-SP

Dear Sir:

Reference is made to your letter of July 14, 1982, regarding the possibility of installing four 9x9 Lead Test Assemblies in the reactor core for Dresden Unit 2.

As you no doubt know, the Board will take no position on such a procedure pending review by the NRC Staff.

Sincerely,

John F. Wolf
