DSQ5

Preliminary Statement

Power Authority of the State of New York ("Power Authority"), licensee of Indian Point 3 Nuclear Power Plant, hereby moves for an order waiving the requirement of 10 CFR § 2.743(f) for distribution of copies to each party of the Indian Point 3 Emergency Plan and Emergency Planning Implementation Procedures Document (collectively the "on-site plans").

Request for Waiver

10 CFR § 2.743(f) requires a party to furnish each other party with a copy of any written exhibit offered into evidence, unless "the presiding officer directs otherwise." In connection with the testimony to be presented by the Power Authority's on-site emergency planning panel (John C. Brons, Linda Lomonaco and Dennis Quinn), we presently intend to offer the on-site plans into evidence as exhibits.

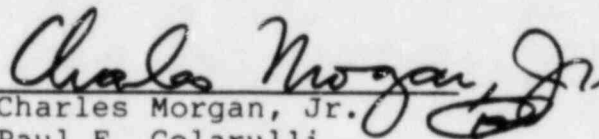

The on-site plans are bulky, voluminous documents several hundred pages in total length. The furnishing of a copy for each party would be extremely expensive and does not appear to be necessary. A waiver of § 2.743(f) is appropriate for these reasons. The Power Authority further notes that these documents are on file with the Commission as pub-

lic documents, and were produced for all parties at licensees' document production on June 1, 1982.

In lieu of now furnishing a copy to each party, the Power Authority proposes to furnish one copy to each Board member, to the reporter, and to each table of parties when the on-site panel is presented. In addition, the Power Authority would make a copy available for inspection by appointment at the offices of counsel, Shea & Gould, New York, New York.

Finally, we note that certain information, principally names of individuals and confidential telephone numbers, will be redacted for security reasons in all furnished copies of the on-site plans.

Respectfully submitted,

Charles Morgan, Jr.
Paul F. Colarulli
Joseph J. Levin, Jr.
