FREEDOM OF INFORMATION  
ACT REQUEST

FOIA-82-466

Rec'd 10-4-82

Gentlemen:

This is a request under the Freedom of Information Act, as amended, 5 U.S.C. §552 and the Freedom of Information Act Regulations of the United States Nuclear Regulatory Commission ("NRC"), 10 CRF §9.

The undersigned hereby requests:

- A. All records (as defined in 10 CFR §9.3a) furnished to NRC by or on behalf of Westinghouse Electric Corporation (Westinghouse) which refer or relate to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for use at Florida Power & Light Company's Turkey Point 3 or 4 nuclear power plants (Turkey Point).
- B. All records furnished to NRC by or on behalf of Westinghouse which refer or relate to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for use at any nuclear power plant other than Turkey Point including, without in any way limiting the foregoing, Westinghouse analyses of the causes of tube degradation and suggested or proposed remedial action.
- C. All records provided to NRC by any person other than Westinghouse which refer to or relate to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for any nuclear power plant.

8209150053

- D. All records authored, sponsored or commissioned by NRC and/or its employees which refer to or relate to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for any nuclear power plant including, without limiting the foregoing, analyses of the causes of tube degradation and suggested or proposed remedial action.
- E. All records authored, sponsored, or commissioned by NRC and/or its employees which refer to or relate to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by any company other than Westinghouse for any domestic nuclear power plant including, without limiting the foregoing, analyses of the causes of tube degradation and suggested or proposed remedial action.
- F. All records not previously covered furnished to NRC by or on behalf of Westinghouse which relate water chemistry requirements or specifications to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for use in any domestic nuclear power plant including, but not limited to, Turkey Point.
- G. All records not previously covered furnished to NRC by any person other than Westinghouse which relate water chemistry requirements or specifications to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for use in any domestic nuclear power plant including, but not limited to, Turkey Point.
- H. All records not previously covered authored, sponsored or commissioned by NRC and/or its employees which relate water chemistry requirements or specifications to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by Westinghouse for use in any domestic nuclear power plant including, but not limited to, Turkey Point.

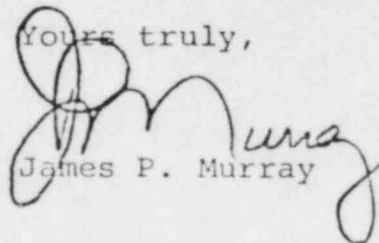

Director, Office of Administration

- I. All records not previously covered authored, sponsored or commissioned by NRC and/or its employees which relate water chemistry requirements or specifications to tube degradation, thinning, denting, corrosion, cracking and/or related phenomena in any steam generator sold or manufactured by any company other than Westinghouse for use in a domestic nuclear power plant.

We are aware that it is the policy of NRC to disclose records which NRC might consider exempt from disclosure if such disclosure is not contrary to the public interest and will not adversely affect the rights of any person. 10 CFR §9.9. Accordingly, for any record for which NRC claims an exemption please specify not only your bases for claiming the exemption but also the reasons why this policy is not applicable.

We understand that the amended Act and 10 CFR §§9.8 and 9.9 provide for a reply to this request within 10 working days of its receipt. However, because of the volume of documents potentially affected by this request we are willing to stipulate to the ten day extension of your response time permitted by §9.13. If additional time is necessary we shall be agreeable to a further extension as provided for in §9.9(d). These documents are essential to on-going litigation, but it is not our intention to place unreasonable requirements on your office. We shall cooperate with you in any way that we can. We look forward to your earliest response.

Yours truly,

James P. Murray
