Washington, DC 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
SUPPLEMENT TO LICENSE AMENDMENT REQUEST 94-002
QUADRANT POWER TILT RATIO

REF: TU Electric letter logged TXX-94008, from W. J. Cahill, Jr.
to the NRC, dated February 14, 1994

Gentlemen:

The referenced letter transmitted License Amendment Request 94-002 which revised the Quadrant Power Tilt Ratio Technical Specification. As part of that Technical Specification change request, Surveillance Requirements 4.2.4.1 and 4.2.4.2 were combined into Surveillance Requirement 4.2.4.1. Surveillance Requirement 4.2.4.2 was deleted. Subsequently, a reference to Surveillance Requirement 4.2.4.2 was discovered in Technical Specification Table 3.3-1, ACTION STATEMENTS, ACTION 2-c. Attachment 2 provides a marked-up page of Technical Specification Table 3.3-1 which revises that reference to be Surveillance Requirement 4.2.4.1.

Please incorporate this change into CPSES License Amendment Request 94-002. The change is editorial only and does not affect the Safety Evaluation or the Significant Hazards Consideration provided with License Amendment Request 94-002.
