

SEP 16 1982

Docket No. 50-133

Pacific Gas & Electric Company
P. O. Box 7442
San Francisco, California 94106

Attention: Mr. Phillip A. Crane Jr.
Assistant General Counsel

Gentlemen:

This letter is to inform you that we have reorganized the Division of Resident, Reactor Projects, and Engineering Programs in Region V.

The reorganization is intended to improve the continuity of our programs for facilities in the construction and pre-operational testing phases as they enter the operational phase. The construction and operation branches have been combined and project responsibility within the Division will remain throughout construction and operations with one of our project branches.

Additionally we have established an Engineering Programs Section. This section will provide a single point of focus for the reactor licensing effort which is being transferred from NRR to the Regional Offices as part of the NRC's Regionalization program.

The following summarizes the new organization as it relates to the Region V power reactor facilities.

Reactor Projects Branch #1

Daniel M. Sternberg, Chief
Phone: 415 943-3737

Projects Section 1
Robert T. Dodds, Chief
Phone: 415 943-3720

Washington Public Power Supply System
Portland General Electric
