

APPENDIX A

Limatorque Corporation
Docket No. 99900904/82-02

NOTICE OF VIOLATION

As a result of the inspection conducted on November 30-December 3, 1982, and in accordance with Section 206 of the Energy Reorganization Act of 1974 and its implementing regulation 10 CFR Part 21, the following violation was identified and categorized in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C), 47 FR 9987 (March 9, 1982):

Section 21.31 of Title 10, Part 21 of the Code of Federal Regulations, dated January 1, 1982, states:

Each individual, corporation, partnership or other entity subject to the regulations in this part shall assure that each procurement document for a facility, or a basic component issued by him, her or it on or after January 6, 1978, specifies, when applicable, that the provisions of 10 CFR Part 21 apply.

Contrary to the above, Limatorque failed to assure that purchase orders, issued to Isomedix (No. 063274 for irradiation services) and Acton Environmental Testing (No. 065408 for seismic testing), specified that the provisions of 10 CFR Part 21 were applicable.

This is a Severity Level V violation (Supplement VII).
