RE: In the Matter of Commonwealth Edison Company
Byron Station, Units 1 and 2
Docket Nos. 50-454 and 50-455

Dear Mr. Bielawski:

DAARE/SAFE requests Commonwealth Edison to provide copies of the following information pertaining to the D4-D5 model steam generators at Byron and the Krsko Nuclear Power Plant. This information, while proprietary to Westinghouse Corporation, is recent material not previously available to DAARE/SAFE which DAARE/SAFE wishes to examine:

- 1.) "Operating Procedures for Counter-Flow Preheat Steam Generator Main Feedwater Bypass System with Concurrent Feedwater Flow", April, 1982 report, Westinghouse Corporation.
- 2.) "High Pressure Water Hammer Test Program for the Counter-flow Preheat Steam Generator", WCAP-9364.
- 3.) "Steam Generator Feedwater System Interface Design Criteria- Plants with Model D4-D5 Preheat Steam Generators", S6-80-06-067.
- 4.) "Steam Systems Design Manual", PIP Vol. 10-1, Rev. 3 dated 3/78

DAARE/SAFE is also requesting copies of the following documents we examined in your offices previously which Edison agreed to provide:

Pressurizer [#679128 add. to 676440, rev. 5]
Pressurizer Safety valves [#G678838]
Reactor Coolant Pump [#952139]
Reactor Coolant System [Addendum 952326]
Control Valves [#G-678844]
