FROM: Samuel J. Chilk, Secretary  
SUBJECT: SECY 82-498 - WITHDRAWAL OF PROPOSED  
RULE TO CODIFY NUREG-0737 REQUIREMENTS  
FOR OL APPLICANTS

This is to advise you that the Commission (with Chairman Palladino and Commissioners Ahearne, Roberts and Asselstine agreeing) has approved your recommendations not to issue a final rule imposing NUREG-0737 provisions on operating license applicants. You should forward the Federal Register notice for signature and publication.  
(EDO/NRR) (SECY Suspense: 2/15/83)

Commissioner Gilinsky did not participate in this action.

Commissioner Ahearne noted that the Commission has an outstanding policy statement permitting going beyond the regulations. (Further Commissioner Guidance for Power Reactor Operating licenses; Statement of Policy. Dated 6/16/80, 45 FR 41738) He requested that he be provided with a report discussing the areas where the Commission still needs regulations to cover the beyond-the-regulations subjects. (He would withdraw the policy statement when these areas are covered by regulations.)

If you can't catch me -  
catch Joe Scinto - he knows  
all about this -- and should  
provide principal input to you.

Help! Tom Appalito  
says he has no idea  
what Ahearn wants.  
That last para is  
confusing. If you can  
help clarify, Tom would  
appreciate it.
