MEMORANDUM FOR: Edward L. Jordan, Director
Office for Analysis and Evaluation
of Operational Data

FROM: Patricia G. Norry, Director
Office of Administration

SUBJECT: OFFICE CONCURRENCE ON FINAL RULE ENTITLED "NRC
OPERATIONS CENTER COMMERCIAL TELEPHONE NUMBER CHANGE"

The Office of Administration has reviewed and concurs in the final rule that would change the NRC Operations Center commercial telephone and facsimile numbers. We have attached a marked copy of the final rule that presents editorial and format changes. These changes should be made before the final rule is submitted for the EDO's signature.

We recommend that this final rule be made effective on the date of publication. This type of rulemaking meets the criteria for dispensing with the normal 30-day delay for the rule to become effective.

When the final rule is forwarded for signature and publication, please include a 3.5-inch diskette that contains a copy of the final rule in WordPerfect 5.0 or 5.1 as part of the transmittal package. The diskette will be forwarded to the Office of the Federal Register and the Government Printing Office for their use in typesetting the document.

If you have any questions regarding our comments, please have a member of your staff contact Michael T. Lesar on 492-7758 or Alzonja Shepard on 492-7651.

RIN 3150-AE84

NRC Operations Center Commercial Telephone Number Change

AGENCY: Nuclear Regulatory Commission.

✓ ACTION: Final Rule

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to ^{reflect a} change _{in} the NRC Operations Center commercial telephone number from ~~(301) 951-0550 to (to be determined)~~ and the facsimile number from ~~(301) 492-8187 to (to be determined)~~. These amendments are necessary to inform the public of these administrative changes to the NRC's regulations.

EFFECTIVE DATE: (60) days from date of publication

Why 60? ADA requires only a 30-day deferral. In fact, this type of regulation meets the criteria for dispensing with the normal 30-day delay.

FOR FURTHER INFORMATION CONTACT: Jean Trefethen, Office for Analysis and Evaluation of Operational Data, U.S. Nuclear Regulatory Commission, Washington DC 20555, Telephone (301) 492-8985.

SUPPLEMENTARY INFORMATION: In June 1994, the NRC is scheduled to move its Operations Center from the Maryland National Bank Building in Bethesda, Maryland, to the Two White Flint ~~Navy~~ building in Rockville, Maryland. When ^{more} this occurs, it will be necessary to use new telephone and facsimile numbers to reach the NRC Operations Center. For a minimum of 90 days following the

✓ ^{made} move calls to the old telephone number will automatically transfer to the new Operations Center. NRC licensees shall revise their procedures and any other affected documentation to show the proper telephone and facsimile numbers for the NRC Operations Center. This notice is being published to inform the public and NRC licensees of the commercial telephone and facsimile number changes.

Because this amendment deals with agency procedures, the notice and comment provisions of the Administrative Procedures Act (APA) do not apply pursuant to 5 U.S.C 553(b)(A). The amendment is effective 60 days following publication in the Federal Register.

Environmental Impact: Categorical Exclusion

The NRC has determined that this final rule is the type of action described in categorical exclusion 10 CFR 51.22(c)(2). Therefore, neither an environmental impact statement nor an environmental assessment has been prepared for this final rule.

Paperwork Reduction Act Statement

This final rule contains no information collection requirements and, therefore, is not subject to the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.).

Regulatory Analysis

✓ A No regulatory impact analysis has ^{not} been prepared for this amendment because it is an administrative action that merely changes the telephone and facsimile numbers that are currently being used by licensees under the existing regulations.

Backfit Analysis

The NRC has determined that the backfit rule, 10 CFR 50.109, does not apply to this final rule because this rule does not involve any provisions which would impose a backfit as defined in § 50.109(a)(1). Therefore, a backfit analysis is not required for this rule.

List of Subjects

10 CFR Part 20 - Byproduct material, Criminal penalties, Licensed material, Nuclear materials, Nuclear power plants and reactors, Occupational safety and health, Packaging and containers, Radiation protection, Reporting and recordkeeping requirements, Special nuclear material, Source material, Waste treatment and disposal.

10 CFR Part 21 - Nuclear power plants and reactors, Penalties, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 30 - Byproduct material, Criminal penalties, Government contracts, Intergovernmental relations, Isotopes, Nuclear materials, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 35 - Byproduct material, Criminal penalties, Drugs, Health facilities, Health professions, Medical devices, Nuclear materials, Occupational safety and health, Radiation protection, Reporting and recordkeeping requirements.

10 CFR Part 40 - Criminal penalties, Government contracts, Hazardous materials transportation, Nuclear materials, Reporting and recordkeeping requirements, Source material, Uranium.

10 CFR Part 50 - Antitrust, Classified information, Criminal penalties, Fire protection, Intergovernmental relations, Nuclear power plants and reactors, Radiation protection, Reactor siting criteria, Reporting and recordkeeping requirements.

10 CFR Part 70 - Criminal penalties, Hazardous materials transportation, Material control and accounting, Nuclear materials, Packaging and containers, Radiation protection, Reporting and recordkeeping requirements, Scientific equipment, Security measures, Special nuclear material.

WASHINGTON, D. C. 20555-0001

AE84-2

The Honorable Joseph I. Lieberman, Chairman
Subcommittee on Clear Air and Nuclear Regulation
Committee on Environment and Public Works
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

The Nuclear Regulatory Commission (NRC) has sent to the Office of the Federal Register for publication the enclosed final rule which amends the Commission's regulations in 10 CFR Parts 20, 21, 30, 35, 40, 50, 70, 72 and 73. This final rule will change the NRC Operations Center commercial telephone number from (301) 951-0550 to (to be determined) and the facsimile number from (301) 492-8185 to (to be determined). to

These amendments are administrative in nature only and do not add new requirements or revoke any existing regulations; therefore, good cause exists for finding that the notice for proposed rulemaking and public procedure is unnecessary under Title 5 U.S.C. Section 553. Accordingly, the amendment is being published for codification as a final rule.

Sincerely,

James M. Taylor
Executive Director for Operations

Committee on Natural Resources
United States House of Representatives
Washington, DC 20515

Dear Mr. Chairman:

The Nuclear Regulatory Commission (NRC) has sent to the Office of the Federal Register for publication the enclosed final rule which amends the Commission's regulations in 10 CFR Parts 20, 21, 30, 35, 40, 50, 70, 72 and 73. This final rule will change the NRC Operations Center commercial telephone number from (301) 951-0550 to (to be determined) and the facsimile number from (301) 492-8185 to (to be determined).

These amendments are administrative in nature only and do not add new requirements or revoke any existing regulations; therefore, good cause exists for finding that the notice for proposed rulemaking and public procedure is unnecessary under Title 5 U.S.C. Section 553. Accordingly, the amendment is being published for codification as a final rule.

Sincerely,

James M. Taylor
Executive Director for Operations

APPROVED FOR PUBLICATION

The Commission delegated to the EDO (10 CFR 1.31(c)) the authority to develop and promulgate rules as defined in the APA (5 U.S.C. 511(4)) subject to the limitations in NRC Management Directive 9.17, Organization and Functions, Office of the Executive Director for Operations, paragraphs 0213, 038, 039, and 310.

The enclosed final rule, entitled "NRC Operations Center Commercial Telephone Number and Facsimile Number Change", will amend 10 CFR Parts 20, 21, 30, 35, 40, 50, 70, 72 and 73. This final rule will change the NRC Operations Center telephone number from (301) 951-0550 to (to be determined) and the facsimile number from (301) 492-8187 to (to be determined).

This final rule does not constitute a significant question of policy, nor does it amend regulations contained in 10 CFR Parts 7, 8, or 9 Subpart C concerning matters of policy. I, therefore, find that this rule is within the scope of my rulemaking authority and am proceeding to issue it.

MEMORANDUM FOR: The Chairman
Commissioner Rogers
Commissioner Remick
Commissioner de Planque

FROM: James M. Taylor
Executive Director for Operations

SUBJECT: DAILY STAFF NOTES, [DATE] 1993

AEOD

1. Rule Amendment

The NRC Operations Center will be moving to Two White Flint North. This move will result in a new Operations Center commercial telephone and facsimile number. Consequently, the commercial telephone and facsimile number published in the Code of Federal Regulations will no longer be valid. The NRC licensees must revise their procedures and any other affected documentation to show the proper telephone and facsimile number for the NRC Operations Center. The final amendment will be published in the Federal Register.
