DOCKET 50-255 - LICENSE DPR-20 -
PALISADES PLANT - REVISED PALISADES EMERGENCY PREPARDNESS BOOKLET

The NRC notified Consumers Power Company by letter dated November 5, 1982 of a technical error in the Palisades Emergency Preparedness Booklet. That letter requested that the booklet be corrected prior to the next scheduled distribution. Subsequently, by a letter dated December 13, 1982, Consumers Power Company documented its agreement with the staff suggestion that the inclusion of an errata page with each booklet distributed in 1983 would be an acceptable alternative to reprinting the entire booklet.

This letter provides as an attachment the Palisades Emergency Preparedness booklet with addendum which was distributed on February 1, 1983.

- On page 8, under "What If I Am Instructed To Evacuate?," disregard the second sentence of paragraph three ("Put on a dust mask or breathe through a damp handkerchief to filter out any dust in the air.") - On page 22, under "maximum permissible dose," line four should read "...500 millirem of radiation per year." Cross out the word "day" and insert "year" in its place.
