Re: Docket No. 30-4733, License No: 20-12943-01

Dear Sirs:

Responsive to your letter of January 22, 1980, we are pleased to confirm our telephonic advice that on January 15, 1980 we forwarded to Division of Fuel Cycle and Material Safety, Washington, D.C. our application for reinstatement and/or renewal of our captioned Byproduct Material License, copy of which is enclosed.

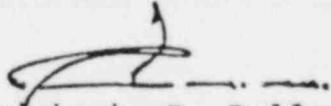

We thank your office for verifying that our application was received and is being processed.

It is hoped that everything possible will be done to expedite issuance of the license to the end that we may manufacture for and ship to the Department of Defense against a contract awarded to us a substantial quantity of our Compass, Magnetic, Unmounted, Pocket, Survival, the card (dial) and crystal (cover) of which are required to be painted with Promethium-147, for inclusion in packout of Survival Kits.

Should anything further be required, please do not hesitate to so advise.

Sincerely,

WALTHAM COMPASS CORPORATION

  
Benjamin D. Pollack  
Corporate Clerk (Secretary)

DETAILS

1. Person Contacted

Mr. F. Marcel

2. Expiration of License

The inspector telephoned the licensee on January 9, 1980, and notified him that his License 20-12943-01 had expired on September 30, 1978. The licensee informed the inspector that they wished to maintain this license. A letter, together with an NRC-313 application form, was sent to the licensee.

3. Application for New License

On February 13, 1980, the Regional Office received a copy of the letter forwarding an application for a new license, together with the enclosed license fee, to the Radioisotopes Licensing Branch.

4. Evaluation by the Regional Office

Region I has evaluated the information supplied by the licensee, and since an application has been filed for the material involved, determined that no further action is required by this office.
