Re: License No. 20-12943-01  
dated September 28, 1973

Dear Sirs:

On February 13, 1974 we paid Invoice No. L-4941-74 in the sum of \$2,000 in connection with renewal of the captioned license.

It is thought that the annual fee for our byproduct material license should be \$1,000 -- not \$2,000 -- in accordance with Subdivision 3.B. of Paragraph 170.31 entitled "Schedule of fees for materials licenses," for the following reasons:

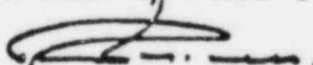

- a) We secure and obtain from Minnesota Mining & Manufacturing Co., Inc. sealed sources only;
- b) We do not at any time or in any manner whatsoever work with or handle raw radioactive material; and
- c) We distribute our products (compasses) to specifically authorized and duly licensed consignees. ✓

Accordingly, we would appreciate your informing us as to whether you concur with us. If so, may we secure a refund of \$1,000?

Any consideration you may see fit to extend will be appreciated.

Very truly yours,

WALTHAM COMPASS CORPORATION

  
Benjamin D. Pollack  
Clerk (Secretary)
