August 21, 1968

U. S. Atomic Energy Commission  
Washington, D. C. 20545

Attention: Mr. Robert Brinkman

Dear Sirs:

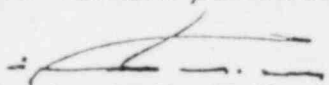

Reference is made to our pending application for Byproduct Material License for Promethium 147 forwarded to you under date of July 24, 1968 and our letter dated August 7, 1968 modifying such application.

Reference is further made to subject matter of telephone conversation this day had between your Mr. Robert Dube and the writer in which we advised that Mr. M. M. Bolton, Jr., our Radiological Safety Officer, had recommended that, should our license be granted, we purchase for use at our premises in Waltham, Mass. an End Window Survey Meter. Accordingly, please be advised that should our application for license be approved, we will purchase and use, as instructed by Mr. Bolton, a Nuclear Chicago Corporation Model No. 2612, or equal, End Window Survey Meter.

Should anything further be required of us in connection with our pending application and correspondence relating thereto, please feel free to call upon us.

Very truly yours,

WALTHAM COMPASS CORPORATION
