Mr. D.M. Sreniawski, Chief  
Materials Radiation Protection  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Ref: License No. 13-20177-01

36-18057

Dear Mr. Sreniawski:

Under the circumstances of the state of our license renewal, I appreciate the visit by Mr. C.T. Oberg. He was very helpful and conducted himself in a very professional manner.

Regarding the violations cited:

1. All records have been centralized and a follow-up system established to be certain the six month inventory is taken and the two year suspense date is adhered to.

Documents related to original receipt of the source and equipment have likewise been placed on file.

2. Documents specified have now been posted.

Attached is a copy of the amended license. It is the full intent of this office to retain the equipment in locked storage. The key is now and will be retained by myself.

Sincerely,

F.M. Johnson  
Eastern Area Engineering Manager
