Gentlemen:

This refers to your letter dated March 15, 1975, concerning your License No. 20-12943-01.

In order to provide for use of radioactive material, we need an up-to-date statement of your facilities, equipment, and radiation safety program as specified in items 10 through 15 of Form NRC-313. In addition, we need to know the training which has been given to personnel who will use and handle the compass components.

We shall continue review upon receipt of the above information. Your reply should be submitted in duplicate.

Sincerely,

Nathan Bassin
