NOTICE OF VIOLATION

STS Consultants LTD.

License No. 48-21211-01

As a result of the inspection conducted on March 1, 1983, and in accordance with the NRC Enforcement Policy, 47 FR 9987 (March 9, 1982), the following violations were identified:

1. License Condition No. 18 requires that licensed material be possessed and used in accordance with statements, representatives, and procedures contained in application dated November 8, 1982. Item No. 12 of that application requires that a film badge be worn by personnel transporting and using licensed material.

Contrary to the above, the NRC inspector learned from statements of licensee representatives and a review of records that this requirement was not met. Specifically, no film badge was worn by an individual in your employee when transporting and using licensed material during the period from February 22, 1983 to the day of the inspection.

This is a Severity Level IV violation (Supplement VI).

2. 10 CFR 19.11(a) and (b) require that current copies of Part 19, Part 20, your license, license conditions, documents incorporated into the license, license amendments and operating procedures be posted, or that a notice describing these documents and where they may be examined, be posted.

Contrary to this requirement, on the day of the inspection, March 1, 1983, neither the documents nor the notice were posted.

This is a Severity Level V violation (Supplement VI).

With respect to item two, the inspection showed that action had been taken to correct the identified item of noncompliance and to prevent recurrence. Consequently, no reply to this item of noncompliance is required and we have no further questions regarding this matter. With respect to item one, pursuant to the provisions of 10 CFR 2.201 you are required to submit to this office within thirty days of the date of this Notice a written statement or explanation in reply, including for each item of noncompliance: (1) corrective action taken and the results achieved; (2) corrective action to be taken to avoid further noncompliance; and (3) the date when full compliance will be achieved. Consideration may be given to extending your response time for good cause shown.
