RELIEF OF PERSONNEL

PROCEDURE NO. ODA-302

REVISION NO. 3

SAFETY-RELATED

SUBMITTED BY: *J. B. Smith* DATE: 1/26/83
OPERATIONS SUPERINTENDENT

APPROVED BY: *R. A. Jones by R. W.* DATE: 2/8/83
MANAGER, PLANT OPERATIONS

<p style="text-align: center;">CPSES OPERATIONS DEPARTMENT ADMINISTRATION MANUAL</p>	<p style="text-align: center;">ISSUE DATE FEB 11 1983</p>	<p style="text-align: center;">PROCEDURE NO. ODA-302</p>
<p style="text-align: center;">RELIEF OF PERSONNEL</p>	<p style="text-align: center;">REVISION NO. 3</p>	<p style="text-align: center;">PAGE 2 OF 26</p>
<p>1.0 <u>Purpose</u></p> <p>This procedure describes the manner in which the Shift Supervisor, Assistant Shift Supervisors, Reactor Operators and Auxiliary Operators shall be relieved.</p> <p>2.0 <u>Applicability</u></p> <p>This procedure applies to Shift Supervisors, Assistant Shift Supervisors, Reactor Operators and Auxiliary Operators. This procedure becomes effective when determined appropriate by the Operations Superintendent.</p> <p>3.0 <u>Definitions</u></p> <p>3.1 At The Controls - The area described in FSAR section 13.5.1.3. In general, the area within the main control board horseshoe.</p> <p>4.0 <u>Instructions</u></p> <p>4.1 General Instructions</p> <p>4.1.1 The relief shall normally commence prior to the start of the next shift and shall be of sufficient duration to assure that the on-coming personnel do not assume independent responsibility until the required information has been obtained.</p> <p>4.1.2 Each off-going shift operator shall continue with his duties until properly relieved by an operator of equal or higher classification unless otherwise advised by the Shift Supervisor. As soon as the on-coming operator accepts the responsibilities of the position, he shall signify this acceptance by signing the appropriate space on the relief checklist.</p> <p>4.1.3 The relief checklists (Attachments 1 through 10) shall be used during the relief as an aid to ensuring that all applicable topics are addressed in the turnover conversation and that information contained in various sources is reviewed by the on-coming personnel. Items contained in Part I of the checklist shall be prepared by the off-going personnel prior to the relief meeting. Items in Part II shall be reviewed by the on-coming personnel as early in the shift as practical but not necessarily prior to the departure of the off-going personnel.</p>		

CPSES OPERATIONS DEPARTMENT ADMINISTRATION MANUAL	ISSUE DATE FEB 11 1983	PROCEDURE NO. ODA-302
RELIEF OF PERSONNEL	REVISION NO. 3	PAGE 3 OF 26
<p>4.1.4 Whenever a component is in a degraded mode, it shall be so noted in the appropriate section of Part I. If the degraded component/system is limited by a Technical Specifications action statement, additional information shall be documented. The information shall include the length of time that the component has been in the degraded mode as of the beginning of the on-coming shift, the Technical Specifications limit and a brief discussion of the required action once the limit is reached. A reference may be made to the applicable section of the Technical Specifications.</p> <p>4.1.5 After assuming the shift responsibility, the appropriate personnel shall initiate a new relief checklist to be used during the next relief. To the extent possible, the relief checklist should be maintained throughout the shift as opposed to completing the checklist just prior to relief time.</p> <p>4.2 Shift Supervisors/Assistant Shift Supervisors</p> <p>4.2.1 The Shift Supervisors and Assistant Shift Supervisors may verbally conduct the major portions of their relief as a group, with one position at a time covering his relief information. The Assistant Shift Supervisors need only to participate in the group for matters applicable to their assigned unit.</p> <p>4.2.2 The on-coming Shift Supervisor shall ensure that he has an adequate shift complement, in accordance with ODA-102, prior to releasing the off-going shift.</p> <p>4.2.3 In the review of documents, the Shift Supervisor and Assistant Shift Supervisors shall check to ensure that he is cognizant of any new Night Orders or Special Orders. The on-coming Shift Supervisor shall review the Station Operations Log, and the Unit Logs since his last on-duty shift (not to exceed five (5) days). The Assistant Shift Supervisors shall review the applicable unit's Operating Log since their last on-duty shift on the particular unit (not to exceed five (5) days).</p> <p>4.3 Reactor Operators</p> <p>4.3.1 The Reactor Operator shall review the applicable Unit Operating Log entries since his last on-duty shift (not to exceed five (5) days).</p> <p>4.3.2 The Reactor Operator shall not assume responsibility as operator at the controls for more than one unit at a time.</p>		

4.3.3 The Reactor Operator shall review the Main Control Board prior to assuming responsibility for the unit.

4.4 Relief Reactor Operator

The Relief Reactor Operator, as defined in STA-605, shall review both unit's Reactor Operator Relief Checklists as soon as possible following the shift turnover. If Reactor Operator is to be temporarily relieved during the shift, the Relief Reactor Operator shall have reviewed the Reactor Operator Relief Checklist in its entirety before assuming the new position. If the Reactor Operator is to be permanently relieved during the shift, the on-coming Reactor Operator shall perform a shift turnover as specified in step 4.3 of this procedure.

4.5 Auxiliary Operator

4.5.1 An Auxiliary Operator shall take a watch station turnover only if he is qualified to do so. At the Shift Supervisor's discretion, an Auxiliary Operator may assume one or more watch stations.

4.5.2 Each Auxiliary Operator relief shall normally take place at the assigned watch station (Turbine Building Operators Station or Auxiliary Building Operators Station).

4.5.3 As soon as possible after assuming duties, the operator shall observe all indications and operating equipment in his area to ensure normal operation and review the logs for events that have taken place since he was last assigned to that watch station (not to exceed five (5) days).

4.6 Operations Supervisor

The Operations Supervisor shall periodically perform a surveillance of the relief. The surveillance will evaluate the effectiveness and completeness of the turnover. Form ODA-302-11, Attachment 11, shall be completed for the areas inspected.
