Operational Quality Assurance Manual (OQAM),
Revision 13

GNRO-94/00081

Gentlemen:

As required by 10CFR50.54(a)(3), Entergy Operations, Inc. is submitting as Attachment 1, the Grand Gulf Nuclear Station Operational Quality Assurance Manual (OQAM), Topical Report GGNS-TOP-1A, Revision 13.

The changes incorporated into Revision 13 are administrative in nature, reflecting primarily organizational and title changes. These changes have been evaluated and determined not to reduce commitments contained in the previously accepted Quality Assurance Program description (OQAM, Revision 12). Revision 13 of the OQAM continues to satisfy the requirements of 10CFR50 Appendix B and the Regulatory Guides and ANSI Standards referenced in Appendix A to the OQAM. Identification of the specific changes, along with the reason for the change, and the basis for this conclusion as required by 10CFR50.54(a)(3)(ii) is delineated in Attachment 2.

As required by 10CFR50.71, I hereby certify to the best of my knowledge, information, and belief, that the information provided herein accurately reflects changes made since the last submittal of the OQAM.
