Docket No. 70-25

Mr. Paul S. Tepper  
San Fernando Valley Alliance  
for Survival  
13615 Victory Boulevard  
Van Nuys, California 91401

Gentlemen:

This letter is written in response to your request dated July 27, 1982, for information regarding the Rockwell International, Energy Systems Group, Special Nuclear Material License No. SNM-21. Responses to your requests are provided below:

- 1. Confirm it is not necessary that notice of a renewal application be published and that no notice will be published.

It is correct that it is not required under NRC regulations to publish a notice when Rockwell International, Energy Systems Group, applies for a license renewal and no notice will be published.

- 2. Confirm that a request for intervention or a hearing can be made at any time prior to the expiration of the existing license.

A request for a hearing can be made at any time after a renewal application is submitted and prior to the issuance of a license renewal.

Mr. Norman Ketzlach of my staff is the project manager for this case. If you have additional questions, you may wish to contact him directly. His phone number is (301) 427-4510.

Sincerely,

Original Signed By:  
W. T. Crow
