re: Atlas Tailings ~~pile~~ in Mash

Dear N.R.C. -

Though I have lived in Mash only 2.5 years, I have been here as a visitor since 1972. I have always been disturbed by the presence of the tailing pile. It's spring here now and the wind is fierce this time of year. Lots of dust blows off of that pile! And tho I've read that water is not supposed to be leaching stuff into the Colorado, which is close by, I have a hard time believing it.

I would really like to see that pile hauled away from our town and disposed of to the best of our ability. I would also like to see alternative power sources developed so that we don't have this horrid waste polluting our planet.

Sincerely,
Kathryn R. Kemp

P.S. Please don't even consider using volcanic rock from Round Mountain for cover purposes. Leave Round Mountain alone!! It is a beautiful monument of nature.
