Dear Sir:

The NRC was notified of a potentially reportable deficiency in
Reference (A), and an Interim Report was transmitted by Reference (B).
At that time, it was estimated that a Final Report would be available by
March 10, 1983.

Due to the extensive evaluation required, it is now expected that this
information will be finalized by May 5, 1983, when a complete report will
be submitted.

There is no new information or change to the Interim Report at this time.

Very truly yours,
