DOCKETING & SERVICE
BRANCH

In the Matter of

CAROLINA POWER AND LIGHT CO. et al.
(Shearon Harris Nuclear Power Plant,
Units 1 and 2)

Dockets 50-400 OL
50-401 OL

Wells Eddleman's Objections and Request for
Clarification re Hearing Schedule

Pursuant to the Board's Memorandum and Order dated March 10 '83, served March 11 and received by me March 16, I ask clarification that on page 4, Item 5, Eddleman 116 is meant, rather than Eddleman 16 (which was not admitted; 116 was), and that DCRDR contentions, if any, on control room design fall under this deferral.

Please also clarify if the footnote ruling on that page re Eddleman 41 does or does not prevent Applicants from pursuing discovery re Eddleman 41 before the end of the environmental hearing. I have much work to do for environmental contentions; it'd best be deferred. And please clarify my understanding that where Applicants pursue summary disposition by discovery, intervenors have discovery of Applicants on the same contentions.

Re the schedule, March 15, 1984 as the last day for filing discovery on safety/management issues seems to assume the environmental hearing will end January 10 (it commences January 4). If those hearings took longer, the discovery date should be put back to still be 65 days from the end of the hearing.

The security plan schedule appears to provide only about 65 days, not 90, for discovery, even though security plan contentions would be new. 90 days is better, setting back the schedule 25 days
