Re: Application XSNM 1974

Dear Mr Griffin:

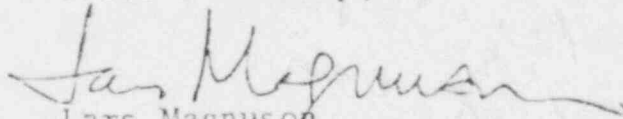

I wish to refer to your letter of July 13, 1982, regarding an application from Edlow International Co. for a license to export to ASEA-ATOM AB, Sweden, 2 500 kg uranium containing 87.5 kg U 235.

After the manufacturing of fuel elements at ASEA-ATOM AB the fuel elements will be used in Ringhals III reactor.

I am now able to inform you that the above mentioned material will be subject to all terms and conditions of the US-Swedish agreement of cooperation regarding civil uses of atomic energy. The consignees, ASEA-ATOM AB and Statens Vattenfallsverk, are authorized to receive and possess the material.

The Embassy would appreciate it if you could send us a copy of the export license, when it has been approved.

Yours sincerely,

Lars Magnuson
First Secretary of Embassy
