Technical Specification Change Request 93-24, Supplement 1

Reference: Letter from G. A. Hunger, Jr. to USNRC Document Control Desk  
dated April 7, 1994

Dear Sir:

PECO Energy Company (PECO Energy) hereby submits Technical Specification Change Request (TSCR) No. 93-24, Supplement 1, in accordance with 10CFR50.90, requesting a change to Appendix A of the Peach Bottom Facility Operating Licenses. The proposed changes, originally submitted by Reference 1, concern the addition of an electrical tie line from the Conowingo Hydroelectric Power Station to Peach Bottom Atomic Power Station (PBAPS). This supplement is required because changes to page 220 for Units 2 and 3, were issued April 5, 1994 by Technical Specification Amendment numbers 187 and 192, respectively. The changes approved by these Amendments were not reflected in the page 220 submitted by Reference 1. This supplement does not affect the analysis or information provided in support of finding no significant hazards submitted in Reference 1.

Attachment 1 contains the revised Technical Specification pages.

Very truly yours,

G. A. Hunger, Jr., Director  
Licensing
