

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKETS NOS. 50-321 AND 50-366GEORGIA POWER COMPANY, ET AL.NOTICE OF ISSUANCE OF AMENDMENTS TO FACILITY
OPERATING LICENSES

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 94 and 31 to Facility Operating Licenses Nos. DPR-57 and NPF-5, issued to Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, and City of Dalton, Georgia, which revised Technical Specifications for operation of the Edwin I. Hatch Nuclear Plant, Units Nos. 1 and 2 (the facility) located in Appling County, Georgia. The amendments are effective as of the date of issuance.

These amendments revise the Appendix B Environmental Technical Specifications to delete nonradiological water quality-related requirements, as required by the Federal Water Pollution Control Act Amendments of 1972; and to delete the aerial erosion control surveys of the Hatch Nuclear Plant-Bonnaire transmission corridor.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

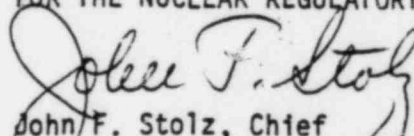

-2-

The Commission has determined that the deletion of water-quality requirements is a ministerial action required as a matter of law and will not result in any significant environmental impact; that the deletion of aerial erosion surveys will not result in any significant environmental impact; and that pursuant to 10 CFR Section 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with these actions.

For further details with respect to this action, see (1) the application for amendments dated October 30, 1981, (2) Amendments Nos. 94 and 31 to Licenses Nos. DPR-57 and NPF-5, and (3) the Commission's letter to Georgia Power Company dated March 11, 1983.
