(Spent Fuel Pool Modification)

RE: Letters of Bordine and
Bridenbaugh
and
Charlevoix Public Schools
Newsletter

Dear Judges:

Enclosed are the letters of Thomas C. Bordine of Consumers
Power and Dale G. Bridenbaugh. Both of these refer to the
revote make-up line, and were to have been attached to my
appeal Brief of January 31, 1983.

Please forgive my error in not attaching these letters to
my original submission

I also here support the motion of Herb Semmel to prevent from
entering the record the recent depositions regarding criticality.
I do not object to creating a full record, but do object to
licensee's short circuit methods of submitting them. This in-
formation must pass the scrutiny of our Licensing Board before
it is passed to the appeal level. I also object because I
had no real opportunity to examine the witnesses, as I would
have had they appeared before the Board in a local hearing.
I participated extensively in the questioning of Doctors
Kiv, Prelewicz and Gay, and was among those who elicited
testimony important in this case; questions that cast
doubt on the suitability of the CPLO's experimental model
comes immediately to mind.

In an unrelated matter, with this mailing I am sending the
promised Charlevoix Public Schools Newsletter that supports
my filing before the Atomic Safety and Licensing Board
entitled "Remarks of John O'Neill II Concerning Evacuation
Plans," dated March 14, 1983. I hazard breaking protocol
in distributing these in this manner, but I'm sure the
Appeal Board members will recognize my need to save time
and postage. Thank-you for your indulgence.

In another unrelated matter, I wish to wish all parties
a happy Saint Patrick's Day.

Sincerely,

8303230246 830317
