May 19, 1994

Chairman Ivan Selig
U.S. Nuclear Regulatory Commission
Washington D.C. 20055

Dear Chairman Selig:

I am writing to request that the public comment period for the proposed 10CFR76 concerning the regulation of the uranium enrichment facilities be reopened. We were not aware that the proposed regulations existed. These regulations are of great concern to us not only because of the Portsmouth plant being located in Ohio and next to the Ohio River, but also how the regulations may impact the other DOE facilities in Ohio.

Your reopening of the process will greatly contribute to public confidence in the federal government and will be appreciated. Thank you.

Sincerely,

Dennis Worthem
