Mr. John A. Hancock
 Vice President, Nuclear Operations
 Florida Power Corporation
 ATTN: Manager, Nuclear Licensing
 & Fuel Management
 P. O. Box 14042, M.A.C. H-2
 St. Petersburg, Florida 33733

Dear Mr. Hancock:

By letter dated September 27, 1982, we transmitted a Safety Evaluation of the Crystal River 3 (CR-3) design for the safety grade automatic initiation and flow indication of the emergency feedwater system (NUREG-0737 Item II.E.1.2). The evaluation concluded that the design was acceptable with one exception, in that it didn't comply with Section 4.13 of IEEE Standard 279-1971 regarding control room indications of overrides.

Your letter of December 29, 1982 committed to install such indication consistent with the installation of the Emergency Feedwater Initiation and Control System. Therefore, we conclude the emergency feedwater system at CR-3 complies with all aspects of II.E.1.2 and this letter completes action on this item.

Sincerely,

"ORIGINAL SIGNED BY:"

John F. Stolz, Chief
 Operating Reactors Branch #4
 Division of Licensing
