Subject: Reply to Notice of Violation Docket No. 030-01223
 License No. 04-02956-02

1. The technologist involved with the violation had informed the other technologists who would handle the container, but by oversight had forgotten to inform the Radiation Safety Officer. The container surface was decontaminated and wiped prior to returning the container to the manufacturer.

2. All Nuclear Medicine personnel have been informed of the requirement to notify the Radiation Safety Officer any time the action level is exceeded and this item will be stressed at time of annual training.

3. All quarterly inspections of the Nuclear Medicine Service will stress this violation so that technologists will continue to be cognizant of this requirement.

4. All corrective actions have been completed and we are in full compliance of our license.

Sincerely,

Sheldon Fine
 Acting Director
