Mr. Richard L. Bangart, Director  
Office of State Programs  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dick:

Thank you for coming to Cheyenne to brief us on NRC agreement state status. I thought the briefing very helpful, and I particularly appreciated your straightforward treatment of the issues.

We are looking forward to hearing from you concerning the possibilities for dividing regulatory responsibilities with respect to uranium mining and milling. I anticipate that will be an important consideration in our decision whether or not to pursue agreement state status. Please let me know if we can supply any information that would be helpful to you in addressing that issue.

Sincerely,
